Respected Sir/Madam,

github.com/tejayeeli 

I want you know my keen interest for this position. With a strong foundation in **Python, machine learning, and web technologies**, I am eager to contribute my skills and passion to the team.

I am working with **TensorFlow, Scikit-learn, Pandas, and NumPy** to build and optimize machine learning models. I have built projects ranging from **image classification and price prediction to medical data analysis**, leveraging both deep learning and traditional ML algorithms. Additionally, my knowledge of **HTML, CSS and SQL** allows me to integrate machine learning models into web applications, creating interactive and user-friendly solutions.

With Strong Passion in **AI&ML** and with my strong basics I believe I'll be a good fit for the team. Being an Enthusiast I always loves to learn from industry experts.

Beyond my technical skills, I bring **strong communication and presentation abilities**, allowing me to effectively collaborate with teams and present insights clearly. My **self-learning** mindset enables me to quickly adapt to new challenges, making me a proactive contributor to fast-paced environments.

I would welcome the opportunity to discuss how my skills align with your team's needs. Please find my resume attached, and I look forward to hearing from you.

Sincerely,

Teja Yeeli
